

**Form for reporting on the recommendations on corporate governance,  
November 2017**

This form is meant as a tool for Danish companies with shares admitted to trading on a regulated market who wish to report on the company's compliance with the recommendations on corporate governance in a standard reporting format.

The recommendation text of this form does not replace the recommendations; reference is made to the recommendations on corporate governance with regard to preface, introduction and comments. The Committee's comments on the recommendations may be included as guidelines and inspiration for companies in their work on the recommendations. In this connection the comments are meant as a tool. The reporting on corporate governance itself should only be carried out in compliance with the specific recommendations of the Committee, and not according to the comments or guidelines.

The report must be composed in Danish and must be provided in a corporate governance report published as either part of the management commentary on the annual report or on the company's website with exact reference to the management commentary. The Committee believes that publication of the corporate governance report on the company's website - with exact reference to the report in the management commentary - creates the highest degree of transparency. Publication of the report on the company's website provides easier access for investors and other stakeholders.

Under the Financial Statements Act a publication on the company's website requires that the URL address – where the corporate governance report is published – is stated in the management commentary in the annual report. The URL address must be the internet address which can be used to access the report **directly**.

There are further requirements to the preparation of the report on corporate governance and how it is to be published. The detailed requirements are described in Executive order no. 558 of 1 June 2016 on Publication of Reports pursuant to the Financial Statements Act.

**Notice:** The form below contains the recommendations of the Committee on Corporate Governance of November 23, 2017. The recommendations are available on the website of the Committee on Corporate Governance [www.corporategovernance.dk](http://www.corporategovernance.dk). Nasdaq Copenhagen A/S has decided to include the recommendations in the Rules for issuers of shares by January 3, 2018. **This form may be used for the preparation of the report on corporate governance in annual reports concerning financial years commencing January 1, 2018 or later.**

## **“Comply or explain”**

If a company deviates from parts of the recommendations, the company has to explain the reasons for the deviations, cf. section 107 b (1) (iii) of the Financial Statements Act. The company has to explain why it has chosen not to comply with a recommendation and what it has chosen to do instead. Failure to comply with a recommendation is not considered a breach of rules, but merely implies that the board of directors of the company has chosen a different approach. The market must decide whether deviations are justified and whether the explanation is satisfactory. A good explanation provides specific insight for stakeholders to be able to decide on any investments. In order to create the transparency necessary for investors, companies must respond to each recommendation and provide information on whether or not they will comply with the recommendation in question.

Note that the reporting must reflect the current style of management at the time of the reporting. In the event of significant changes during the year, or after the balance sheet date, descriptions of the changes should be included in the corporate governance report. Companies must consider each of the recommendations.

If the company complies partially with a recommendation the company must specify which parts it is complying with, why it is deviating from the remaining part of the recommendation and what it has chosen to do instead.

The Committee has observed that many companies choose to provide supplementary information even in cases where the company complies with a recommendation. The Committee encourages companies to provide supplementary information where this increases transparency.

## **Reporting regarding the recommendations from the Danish Committee on Corporate Governance**

(Statutory Corporate Governance Report for 2015, cf. art. 107b of the Danish Financial Statements Act)

This report entails an outline of how ROCKWOOL International A/S (RI) responds to the Danish Recommendations on Corporate Governance issued by the Danish Committee on Corporate Governance in November 2017, an introduction to its management structure description of the main elements of the company's internal control and risk procedures in connection with the financial reporting process.

RI is subject to the Danish Recommendations on Corporate Governance. The recommendations are available on the website of the Danish Committee on Corporate Governance, [www.corporategovernance.dk](http://www.corporategovernance.dk).

The recommendations are not mandatory, but companies listed on the Nasdaq Copenhagen stock exchange must adopt the "comply-or-explain" principle. The principle implies that companies must apply the recommendations issued by the Committee for Corporate Governance or explain why they refrain from doing so. As a listed company, RI has addressed the recommendations below. RI is generally in compliance with the recommendations, but has in some cases chosen to differ. RI has addressed the reasons hereto below, in accordance with the comply-or-explain principle.

### **GOVERNANCE BODIES AND COMMITTEES AND THEIR FUNCTION**

RI has a management structure with a Board of Directors and an executive board referred to as the Group Management. The Board of Directors is responsible for the overall and strategic management and shall ensure proper organisation of the company whereas the Group Management undertakes the day-to-day management of the company.

#### **Board of Directors**

The Board of Directors currently consists of nine members, six of which are elected by the shareholders at general meetings. Of these, four members, including the chairman, are deemed independent according to the Danish Recommendations on Corporate Governance. The remaining three members are elected by the employees pursuant to the Danish Companies Act. The roles and responsibilities of the Board of Directors are defined in the Business Procedure for the Board of Directors. The members of the Board of Directors are elected by the general meeting for a period of one year and may be re-elected.

The Board of Directors evaluates its performance every year. Further, the Board of Directors evaluates the work and performance of the Group Management annually.

The Board of Directors has established a chairmanship consisting of the chairman and the two deputy chairmen.

The Board of Directors has set up an audit committee and a remuneration committee. The committees report to the Board of Directors. The majority of the members of the committees are independent members of the Board of Directors. The Board of Directors has decided not to formally establish a nomination committee but the chairmanship will perform a number of the duties recommended for a nomination committee.

#### **Audit Committee**

The Board of Directors has appointed an audit committee consisting of three members of the Board of Directors. The majority of the members of the audit committee are independent.

The audit committee monitors accounting and audit policies and conditions, which, if determined by the Board of Directors or the audit committee, should be subject to a thorough evaluation. Further, the audit committee evaluates the company's internal control and risk systems.

#### **Remuneration Committee**

The Board of Directors has appointed a remuneration committee consisting of three members of the Board of Directors. The majority of the members of the remuneration committee are independent.

The remuneration committee prepares the remuneration policy for the members of the Board of Directors and Group Management and ensures that the guidelines for Group level variable pay schemes support the strategy. The remuneration policy and the incentive guidelines, and all changes thereto, are approved by the Board of Directors, as well as the general meeting. The remuneration committee evaluates and brings forward recommendations for the remuneration of the Board of Directors. The remuneration committee is authorized by the Board of Directors to approve remuneration for senior executives. The remuneration committee assists with the preparation of the annual remuneration report.

#### **Group Management**

Group Management is responsible for the day-to-day management of the company and the compliance with the guidelines and recommendations set forth by the Board of Directors. The responsibility of the Group Management covers organization of the company as well as allocation of resources, producing and implementing strategies and policies and ensuring timely reporting to the Board of Directors. The Group Management consists of the president and CEO and eight other executive positions. Two executives, including the CEO, are registered as directors with the Danish Business Authority.

**Risk Management**

The Board of Directors continuously evaluates the overall and specific risks associated with the company's activities and operations and the risks associated with the financial reporting process. The aim is to ensure that these risks are addressed in a proactive and efficient manner. As part of the general risk management, the company has established different internal control systems that are continuously examined by the Board of Directors to ensure that they are appropriate and adequate considering the company's current activities and operation.

**Auditing**

To safeguard the interests of shareholders and the general public, an independent auditor is appointed at the general meeting following a recommendation from the Board of Directors. Before making its recommendation the Board of Directors undertakes a critical evaluation of the auditor's independence and competence.

The auditor submits a written report to the assembled Board of Directors once a year but also immediately after identifying any issues of which the Board of Directors should be informed. The auditor's report is discussed in detail in the audit committee.

The Group works closely with the auditor in relation to procedures and internal controls by exchanging controller reports and audit reports, and by generally sharing all relevant information.

**Internal control**

The Group considers strong internal controls to be an essential management tool.

Group Management sets out general requirements for business processes and internal controls in the financial area of subsidiaries. The internal control system includes clearly defined organizational roles and responsibilities, reporting requirements and authorities. The local management teams are responsible for ensuring that the control environment in each company is sufficient to meet local and Group requirements.

Each month the Group's companies report financial data and each quarter comment on financial and commercial developments to head office in Hedehusene. This information is used to prepare consolidated financial statements and reports for Group Management. As part of this process the accounting information reported by all companies in the Group is reviewed both by controllers with regional links and in-depth knowledge of the individual companies, and by Group controlling.

Twice a year, the financial directors of the Group's companies meet with Group controlling to align financial procedures and reporting, and suggest possible improvements. Commercial and financial development, and the associated risks, is also discussed by Group

Management, regional management teams and the individual companies' supervisory committees and management teams during regular management meetings.

**Group Internal Audit**

The Audit Committee annually assesses the need for an internal audit function as outlined in recommendation 3.4.5. The Audit Committee finds that the present set-up, where Management has established an internal control function, is adequate.

The report concerns the financial year **1/1-1/12 2018**.
